What is EAPN - the European Anti Poverty Network?

- Largest independent **network of NGOs** committed to fight against poverty and social exclusion in Europe, with & for people in poverty
- Started in 1990 – **key actor** engaging at national and EU level in social Open Method of Coordination, the Lisbon Strategy, now Europe 2020 and the European Semester
- Receives **financial support** from the European Commission (EaSI programme)
- **31 National Networks** and **13 European NGOs** as members (10000+ organisations)
- **Participation of people** with direct experience of poverty must be part of the solution

Why EU needs a rights-based social and sustainable strategy?

- ❑ **Europe 2020: 'smart, sustainable and inclusive growth failed to deliver benefits for people.**
- ❑ **Failure of poverty target: 113 million – reduction of 5 not 20 million, widening gap: MS + groups.**
- ❑ **Priority to Stability/Growth justifying austerity, generating more poverty and inequality**
- ❑ **European Pillar of Social Rights key initiative but principles not binding rights - implementation?**
- ❑ **Planet in crisis but failure to act on promises! Green transition + social goals equal partners.**
- ❑ **Current market-led growth model can't deliver for people and planet!**
- ❑ **Participation is key!**

What progress on Poverty?

113 million people at risk of poverty

WHAT IS HAPPENING TO POVERTY?

- ❑ **Poverty eradication is a pre-requisite**

Overarching vision and goals of new strategy

□ Aim

To promote social and sustainable development that eradicates poverty and social exclusion, reduces inequalities and promotes well-being

□ Goals

17 SDGs form main goals, ensuring continuity with targets of existing Europe 2020 linked to Social Pillar Rights.

□ Vision

- People and planet first! Environmental/social and economic equal and coherent.
- Requires a paradigm shift from austerity model to social investment in social protection, services, quality jobs, financing through progressive tax/tackling evasion.
- Ending poverty in all its forms must be a pre-requisite, promote human rights and participation

Four Key Priorities

- 1. Achieving Poverty eradication and increasing well-being**
- 2. Political pre-requisites to achieve results**
- 3. Embedding participation and transforming EU coordination instruments**
- 4. EU funds to support the strategy**

1. Achieving Poverty Eradication and increasing well-being.

- ❑ **Ambitious EU target with mid-term review**
 - *End Poverty (SDG1) – 50% AROPE target*
 - *Commitment to end extreme poverty by 2030, measured by homelessness*
 - *All MS use AROPE, with separate monitoring.*
 - *Progressive realization with action plan, interim targets and mid-term review.*

- ❑ **Effective Poverty indicators + social scoreboard**
 - *Use same AROPE, but replace SMD with new material and social deprivation indicator*
 - *Increase coherence of scoreboard with EPRS, with indicators for all 20 principles*
 - *Connect scoreboard averages to poverty target to support upward convergence.*

❑ A Rights-based integrated antipoverty strategy

- *Implement a right-based, integrated, person-centred strategy of Active Inclusion underpinned by EPSR/SDGs.*
- *Implement EU thematic strategies eg Investing in Children and implementation of Child Guarantee*
- *Deliver on pledge to leave nobody left behind: recognize extreme poverty needs specific measures eg tackling homelessness*
- *Actively monitor/support through Semester/ EU funds.*

❑ Urgent guarantee minimum income/social protection

- *Require urgent progress with support of EU funds, monitored by EU adequacy indicator, through Semester.*
- *EU framework Directive above the poverty threshold underpinned by reference budget is feasible now!*
- *Require increased funding/adequacy of social protection tackling tax evasion/progressive tax.*

❑ Concrete results on all social rights

- *Agree action plan with milestones for implementation for all principles.*
- *Develop EU framework to guarantee adequate minimum/living wages and provides a positive hierarchy to MI, 60% of average wage.*
- *Prioritize investment in universal, free public education through life course – beyond employment, working in partnership with communities and students.*
- *Guarantee rights to quality, affordable public services – particularly housing and health – require increase of social housing and regulation private rents, and invest in universal free health systems*

Political Pre-requisites to get results

□ High level political commitment

- *Agreement from Presidents of all EU institutions to adopt Agenda 2030, SDGs and 169 goals as overarching frame, underpinned by EPSR*
- *Driven directly by EC President, with each Commissioner responsible for an SDG*
- *Road map and action plan for all goals, systematic review involving people in poverty and NGOs*

□ Making well-being the goal

- *Rebalancing macroeconomic priorities to promote social/environmental justice and well-being*
- *Well-being pact rather than Stability and Growth*
- *Adopt scenario 1 of FoE reflection paper, ensure strategy benefits people as well as planet, ending poverty a pre-requisite*
- *Create a transparent checklist to ensure ex-ante impact analysis prevent negative economic measures.*

Embedding participation and transforming EU coordination

- ❑ **A participative, social / sustainable European Semester**
 - *Social/sustainable development Semester, delivering on SDGs/EPSSR, with poverty eradication as pre-requisite*
 - *Road map setting out objectives, actions, role of institutions/stakeholders on all SDGs and targets*
 - *Expand CSRs to at least 2 per area (economic/social and environmental, with full analysis of all SDG in CR*
 - *Clearer connection: Semester and voluntary national reviews of SDGs feeding in high level political forum*
- ❑ **Make Civil Society equal partners**
 - *Full protocol to put CSO engagement on a par with social partners (Recital 11), with guidelines, mutual learning/peer reviews on best practice*
 - *Funding for permanent national dialogue processes.*
 - *Appoint a specific Commissioner for participation*
 - *Guidelines for ESO's to ensure equal treatment for CSO*
 - *Yearly bottom up Round table conference with EU*

4. EU Funds to support the strategy

- ❑ **Increase effectiveness of EU funds spending on poverty reduction**
 - ✓ *Increase earmarking for poverty to 30%, and enforce enabling conditionalities with clear outcome indicators on quality of integrated active inclusion strategies to ensure real impact.*
 - ✓ *Strengthen partnership principle, implementing code of conduct through ex-ante condition + make obligatory more meaningful participation of NGO in MC*
 - ✓ *Avoid instrumentalization of ESF to finance mainstream public programmes*
 - ✓ *Support innovative longer term projects developed by grass-root organizations with upfront funding/ global grants, avoiding the 20% co-financing requirement*
 - ✓ *Improve monitoring with soft social indicators ie distance travelled to social inclusion*

Conclusion

- ❑ **Make Agenda 2030, SDGs/ EPSR the framework for ambitious post 2020 strategy**
- ❑ **Overarching goal: promoting well-being, environmental and social justice not GDP!**
- ❑ **End poverty in all its forms: a pre-requisite.**
- ❑ **EU hard law essential to deliver results, with more effective coordination through European Semester linked to EU funding**
- ❑ **Participation of people themselves and NGOs is key to getting sustainable solutions!**

Putting participation and social rights at the heart of sustainable development!
