## GOING BEYOND THE DATA

THE REALITY OF POVERTY  
IN EUROPE

Wednesday 16 October 2019

13.00 – 15.00

European Parliament, Brussels

Room: ASP 3G3

#BeyondTheData #EndPoverty

# Background Information

## Introductions

This event is hosted by the European Anti-Poverty Network (EAPN), with Pierfrancesco Majorino, MEP (S&D Group) and Cindy Franssen, MEP (EPP Group). The other organizers are ATD Fourth World, the International Federation of Social Workers, and Emmaus Europe. This roundtable aims to help MEPs deconstruct myths and break stereotypes about (people experiencing) poverty, and to build their understandings of the realities of poverty going further than data and statistics.

This meeting comes in the context of a failure to achieve the poverty target of the Europe 2020 strategy, and thus the key need to maintain the fight against poverty as a political priority in the post-2020 strategy. Europe has an ambition to leave no one behind while doing what is necessary to make the transition to a more sustainable, carbon neutral economy. How will people experiencing poverty be protected during this transition? How will economic and social rights be guaranteed within a more social and sustainable development model?

The event will open with four case studies, bringing the voices of people experiencing poverty directly together with MEPs. The key questions that will be addressed are: What does poverty in Europe look like, and what are the key trends? What progress has been made on poverty levels in Europe in recent years? What role has the Parliament played in this? The European Parliament will respond in the form of interactive discussions.
